MEDIA ARTS – YEAR 8

TASK 3: PHOTOGRAPHY FOLIO TASK

Assessment Type: **Making** Weighting: **40%** Date Due: **Week 7 (first lesson)**

THE TASK

Over the term, you will be learning the basics of photography, focusing on how light can be manipulated through a camera using **Aperture, Shutter Speed and ISO**.

The goals of the unit are to foster an appreciation of (and hopefully love for!) photography and to develop technical camera skills that will allow you to take a photo using Manual mode rather than Auto.

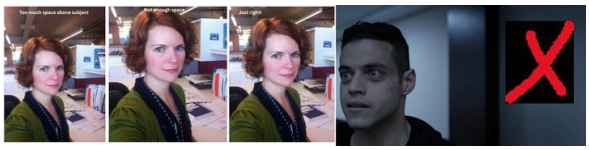

Each week, you will learn a new photography technique and will then demonstrate your knowledge by creatively taking multiple photographs using this technique. Your photos should be unique to you and be ones that you are proud of. You will then upload your best photo/s to a Photography Folio that you will create in Canva (the structure of this folio is on the next page), and this Canva portfolio will be submitted as a PDF document in Week 7 to be marked.

PHOTOGRAPHY FOLIO MARKING RUBRIC

EACH OF YOUR PHOTOS SHOULD HAVE:

The subject purposefully in **focus**.

Purposeful **composition** and **framing** of the subject.

Purposeful **exposure** (not too light and not too dark).

MARKING GUIDE

2 marks = Excellent: Strong technical skill and clear artistic intention

1 mark = Good: Sound understanding of the technique with minor improvement needed (for example, improvements for subject focus, framing composition, or exposure).

0 marks = Not Demonstrated: Technique missing or unclear.
